Successful cases in the [Portfolio](#).

Aweb (June 2022 - October 2023 (1 year and 3 months)) – Content-manager

During the entire period of work, I was engaged in the layout of texts from Google Docs to HTML, then created a page on the site and posted content on it through MODX. I also edited content and layout blocks on old pages, created and edited images in Adobe Photoshop, and wrote small texts for pages.

Responsibilities

- Created semantic and valid HTML texts;
- Created, filled with content, and edited pages in the MODX admin panel;
- Created and edited images in Adobe Photoshop;
- Worked in Google Sheets (Excel) with large amounts of data (filtering, conditional formatting, and applying various functions);
- Wrote, updated, edited small texts for pages.

Aweb Systems (June 2021 – January 2022 (8 months)) – Content-manager

I was engaged in layout of texts, created a page on the site and posted content on it through various CMS: WordPress, OpenCart, MODX, Bitrix, Joomla, Tilda, Wix. I also edited content and layout blocks on old pages using HTML, CSS, and JavaScript.

Responsibilities

- Produce semantic and valid HTML-texts;
- Created, filled with content and edited pages in the administrative panels WordPress, OpenCart, MODX, Bitrix, Joomla, Tilda, Wix;
- Created and edited images in Adobe Photoshop.
